

CampusVue Student Financial Aid Automation

“ We selected CampusVue to run all of our back-end office functions because it integrates financial aid, billing, admissions, registration, throughout the whole student lifecycle. ”

Jason Best
Director of Media & IT
Mars Hill Graduate School

CampusVue Student Information System

The CampusVue® Student Information System (SIS) is the premier administrative solution for managing the entire student lifecycle. Administrators and faculty can leverage centralized data and workflows to improve academics, recruiting, retention, and student services, while business offices gain a 360° view of campus operations for strategic analysis and accurate, real-time reporting. The integrated product suite includes modules for recruiting and admissions, academic records, financial aid, contact manager, housing, student accounts, reporting, and career services.

Automate Financial Aid Packaging

The CampusVue Financial Aid solution automates the processing of student loans, grants, and scholarship programs. You can work on-screen with FAFSA forms and easily process applications with government agencies, lenders, and other third-parties such as Sallie Mae, ELM, and EDConnect. What's more, the solution is included in the CampusVue Student administrative system, enabling rapid service to students based on a comprehensive, real-time view of their records.

CampusVue Student Financial Aid Automation

Financial Aid Automation Has Arrived

Improved FA processing and Title IV administration. Keeping students financed, motivated, and enrolled. CampusVue Financial Aid makes it all happen automatically. Part of CampusVue Student, the leading student information system, the software's automated FA engine frees administrators from routine tasks and allows them to focus more on resolving issues and exceptions for students.

Automate these tasks and more:

- Processing financial aid with government agencies and lenders
- Evaluating financial aid awards and scheduled disbursements to ensure Title IV eligibility
- Orchestrating COD and CommonLine import and export based on processing lifecycle (daily, weekly, monthly)
- Managing exceptions and routing to the right campus, department, and staff member
- Posting payments
- Generating reports for Title IV regulatory compliance
- Printing of checks, stipends, refunds, and receipts

Automate Eligibility

The system eliminates the need to manually review scheduled disbursements while ensuring regulatory compliance.

Automate CommonLine and COD Export and Import Feature

There is no longer a need to use daily wizards to manually export and import CommonLine (CL) or Common Origination and Disbursement (COD) files. The system automatically routes exceptions to designated personnel or 3rd party lenders through ELM via SFTP.

About Campus Management Corp.

More than 1,700 colleges, universities, foundations, and nonprofit organizations worldwide rely on Campus Management Corp® for efficient, scalable, and flexible enterprise software products and services. The company's CampusVue® Ecosystem is a fully integrated, centralized administrative and e-Learning platform that unifies services, academic delivery, administrative management, and reporting for a full range of public, private, and proprietary postsecondary institutions. The platform connects multiple sites and catalogs, enables flexible terms and multiple enrollments, and integrates economically to other leading applications, including software for Constituent Relationship Management (CRM), and learning management systems such as Blackboard® and Moodle®. Clients include Mercer University, Baker University, National University, Indiana University, and Kaplan University.

Automate G5 Management — Deposit Tracking and Reconciliation Feature

This feature allows you to record G5 disbursements requests and refunds. You can track all batched funds from inception to posting to ensure that all data records are associated with funding transactions.

Automate Exceptions Management

The system provides transparency and management oversight by automatically routing exceptions to a staff group, staff member, or advisor for remediation.

Automate Transmission and Retrieval

You can now schedule processing for an optimal time, whether it's during the normal business hours or off-hours.

Ensure Title IV Compliance and More

The Financial Aid module enables efficient administration of Title IV funds and eliminates the need for costly integration and support of proprietary Financial Aid processing software. Functions include tracking of 90-10 requirements, automated R2T4 calculation, and calculations for multiple state and institutional refund policies. With the CampusVue Financial Aid solution, you can:

- Track FA G/L fund source authorization levels to ensure accurate distribution of funds to students without exceeding federal allowances
- Ensure that students have met defined requirements for fund disbursement
- Award, originate, and track Federal Perkins, FSEOG, and Federal Teach Grant
- Originate and certify Title IV awards even when awards have "estimated" status
- Receive timely regulatory updates
- Download and install 1098-T updates in minutes
