

CampusNexus Finance, HR & Payroll Driving Performance at Community Colleges

Community Colleges / Two-year Institutions

According to a 2015 survey, 64% of Business Officers at two-year institutions believe they have a sustainable business model over the next five years, but only 45% of them are confident in that model over the next ten years.

How do you compare?

The Community College Reality

Operational efficiency. Enrollment growth. Faculty talent. Outcomes compliance. Each of these themes present a distinct set of challenges at two-year colleges; combined, though, they require institutions to skillfully balance strategic planning with accurate and actionable information. Does your financial management software help you track and manage to your KPIs? Is your human resources information system helping you recruit and retain the right faculty and staff? Can you produce payroll in-house to realize cost savings?

CampusNexus® Finance, HR & Payroll provides community and technical college business officers and human resource administrators with powerful tools that not only meet today's needs, but drive performance and prime your institution for the future. Now you can turn data into actionable intelligence so your executives and team members can make responsible fiscal decisions that keep your institution on track with your strategic plan.
